Hello, my name is Yura Voevodin

I'm looking for an iOS/iPadOS/macOS developer job.

I'm 30 years old and I have bachelor's degree in Computer Science. You can read about my experience on my website - Yura Voevodin.

I live in Sumy with my family, so I'm interested in remote job only. I should also mention that my English skills are Low Intermediate.

_____

Here's a list of commercial projects that I worked on:

PROVEIT - https://app.playproveit.com/ios
You can find my photo here: PROVEIT - Real Money Trivia
App Store - https://apps.apple.com/us/app/proveit-real-money-trivia/id1219398758

Solitaire (another app for PROVEIT) - https://apps.apple.com/us/app/solitaire-classic/id1457988491

I also developed iOS SDK for **PROVEIT SaaS platform - https://www.playproveit.com**

Feel free to ask about the details and technologies I used while working on these projects.

_____

I also worked on **App Dev Academy** products. Here are some of them:

Chronograph - https://www.chronographapp.com
App Store: https://apps.apple.com/app/chronograph/id1281918814

SumDU - https://www.appdev.academy/portfolio/projects/3-sumdu
App Store - https://apps.apple.com/app/sumdu/id698235283
SumDU is an open source project. You can check out GitHub's repository - https://github.com/appdev-academy/sumdu-ios

_____

I also have my own project - online service with schedules for universities named "**My University**".

Here are the links:
Website - Мій Університет - Розклад СумДУ, КПІ, ХНЕУ
iOS app - https://apps.apple.com/ua/app/мій-університет/id1440425058
Android app - https://play.google.com/store/apps/details?id=ua.com.myuniversity

————

And I also worked on few another projects that not described here 😎

Thanks for reading!
